A Joint Venture with

NAI AGRO DRONE (10 Ltrs PAYLOAD) AGRICULTURE SPRAYING DRONE

One Drone with Two Payloads

Swappable Payloads

1. Sprayer Tank | 2. Seed Spreader

- ✓ Upto 10 Ltrs Tank
- ✓ Waypoint Support
- ✓ Failsafe Enabled
- ✓ Upto 22 Mins Fly Time
- ✓ Front HD Camera
- ✓ 21000 mAh Li-ion Battery

FOR YOUR SMILE OUR TECHNOLOGY FOREVER

Specifications

Classification	- Medium
Max Endurance	- 22 minutes
Max Range	- 2 Km
Max Height	- 131.2ft
Battery capacity	- 21000 mAh
All-up-weight	- 28.700 kg
No of Motors	- 6
Max Speed	- 10 m/sec
Operating Altitude	- 131.2ft
Waypoint Capability	- Available
GCS (Controller)	- Skydroid T12
Sprayer Tank	- 10 Ltrs/Kg Capacity Tank
Spreader Tank	- 9 kg Tank Capacity

Failsafe Features

- ✓ Returns home on Low Battery
- ✓ Returns home on Communication Failure
- ✓ Returns home on GPS Failure

About Us

DR MGR NAI is a Premier Research Startup Company enables technologies for industrial and agricultural growth with higher reliability. We focus on innovations in Naval & Aerospace systems including agricultural sprayer drone, agricultural spreader drone, deep water exploration through Underwater Vehicles, LED lights, Drop camera system and Water bodies study through Autonomous Surface Vehicle. We differentiate ourselves from many of our direct competitors by having a customer and sponsored applied research center that augments our product development expertise.
